Follow the procedure for "How to cook and reheat with microwaves" and choose 160 W when defrosting manually.

RAPID START FUNCTION

This function is used for quick reheating of food with a high water content such as; clear soups, coffee or tea.

Press to automatically start with full microwave power level and the cooking time set to 30 seconds. Each additional press increases the time with ½ min. You may also alter the time by turning the Adjust knob to increase or decrease the time. This button also works as a normal start button after setting a function.

AUTO

AUTO FUNCTIONS

QUICK GUIDE

1. Turn the multifunction knob to the Auto position.
2. Press the Auto button to select the desired auto function.
3. Turn the +/- knob to choose desired food class.
4. Press the Select button (default weight is displayed).
5. Turn the +/- knob to set the weight of the food.
6. Press the Start button.

Midway thru the process, the oven may STOP and prompt you to "TURN or STIR FOOD":

- Don't use the stop button!
- Just open the door and turn the food.
- Close, and restart with the Rapid Start button.

Automatic but less perfect results:

If you do not turn the food when the oven prompts you to do so, the oven will AUTOMATICALLY RESTART after 1 minute. The oven then completes the process. The time will be longer in this case and the result will be less perfect, than it would have been if you had turned the food when prompted to do so.
